

MAX® 112

OVERVIEW

The MAX® 112 bass combo amp delivers more bass in a space saving package. With 200 Watts of power that includes DDT™ speaker protection and a 12 inch heavy-duty woofer, the Peavey MAX® 112 is ready for plenty of gigs and rehearsals. Another Peavey exclusive is the patented TransTube® circuitry that offers you a gain boost feature. The EQ section includes a 3 band EQ and buttons for Punch, Mid-shift and Bright. The Max 112 also includes a unique psycho-acoustic low end enhancement that adds low end without taxing the speaker, a testament to Peavey's technology driven philosophy. Rounding out the features are a built-in chromatic tuner, XLR direct output with ground lift and 1/8" jacks for phones output and aux input.
